

Verse 1

We can be stars shining like diamonds
We can be the moon's majestic glisten
We can be the fire to the sun
We can be the water to the ocean

We can be the thunder to the lightning
We can be heroic, we can be first
We can be the hype everyone needs
And we can be anything we want to be

Chorus

We can be forever
We can make our mark
We can be the best that you've ever seen
Shining as bright as we can be
Just dream

Verse 2

We can be the light behind the clouds
We can be the whistle to the wind
We can be the sunrise we can be the dawn
We can make the snow begin to thaw
We can be the light to help the flowers grow
We can teach you everything we know
We can be the waves, we can sail the seas
We can be anything we want to be

Chorus

We can be forever
We can make our mark
We can be the best that you've ever seen
Shining as bright as we can be
Just dream

Instrumental/Middle 8

We can have a party, we can eat cake
Dancing like a monkey, don't put on the brakes
We can pop balloons, make the ground shake
We can keep it going 'til our backs ache
We can have a party, we can eat cake
Dancing like a monkey, don't put on the brakes
We can pop balloons, make the ground shake
We can keep it going 'til our backs ache

Chorus

We can be forever
We can be an ocean
We can be the best that you've ever seen
Shining bright as we can be

We can be forever
We can be an ocean
We can be the best that you've ever seen
Shining bright as we can be
Just dream
